

Arcane Whitepaper VI Nov. 2021

INTRODUCTION

Stealth launched on the ♦ethereum Network, the Arcane token isn't just your next anime coin.

We're proud to present the Arcane token, a project that will make ripples and changes in the anime- and cryptospheres as we know them.

Whether you are a budding anime artist with dreams of creating your own anime, a gamer, an NFT collector, or simply a level-headed investor - Arcane has something in store for you!

ABOUT ARCANE

Our project began as a **crowdfunding** platform for up-and-coming project creators but quickly grew to encompass so much more. The cryptosphere has long been filled with incredibly talented artists, who struggle with bringing their ideas to life due to lack of funding, as well as marketing- and business expertise. Arcane offers the solution with the first of its kind charitable fund and talented advisors. Arcane is aiming to be a front-runner in the **Metaverse**.

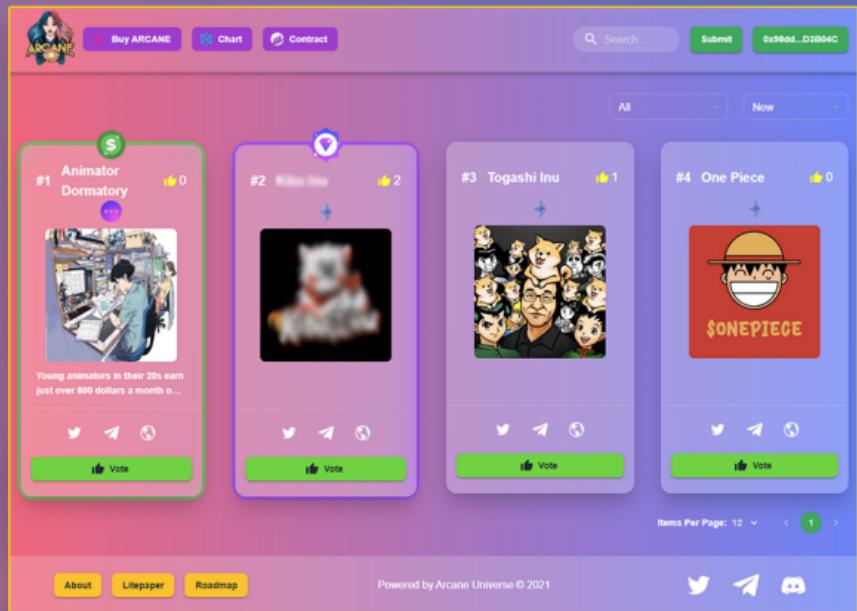

ARCANE

HOW TO APPLY TO GET YOUR PROJECT FUNDED

It's simple, as a creator, you can apply on our website with a brief short or outline of your project and have a chance to get your idea funded!

Through our **dapp**, you will have the **community vote** for you and have the chance of being funded, helping you realise your **dream project**!

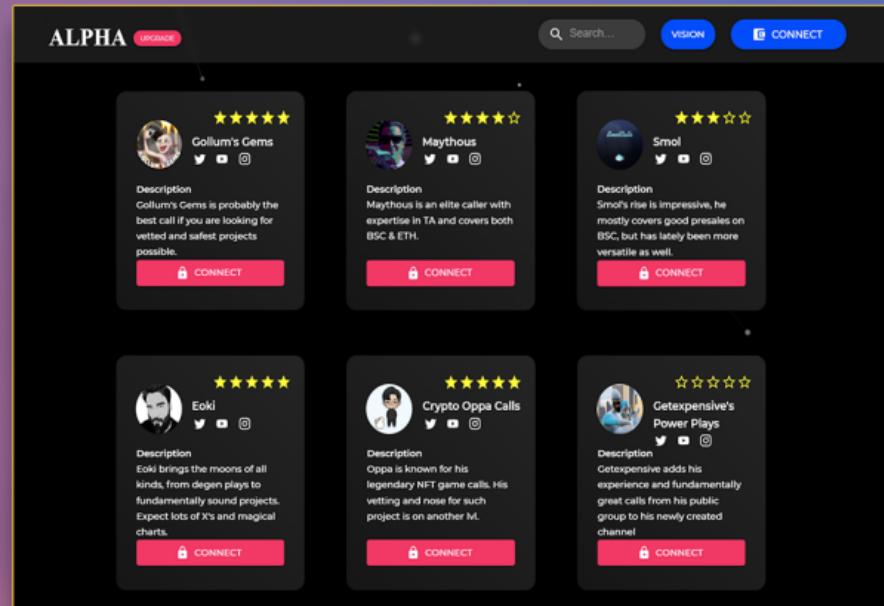

FUTURE PRODUCTS SNEAK PEEK #1

The 2nd dapp is a crypto influencer rating tool, which lets users rate call quality and overall satisfaction with the channels they follow.

The dapp should play a large role in organic promotion to the whole Arcane Universe due to call channels trying to get the best and most ratings and point their followers straight to us.

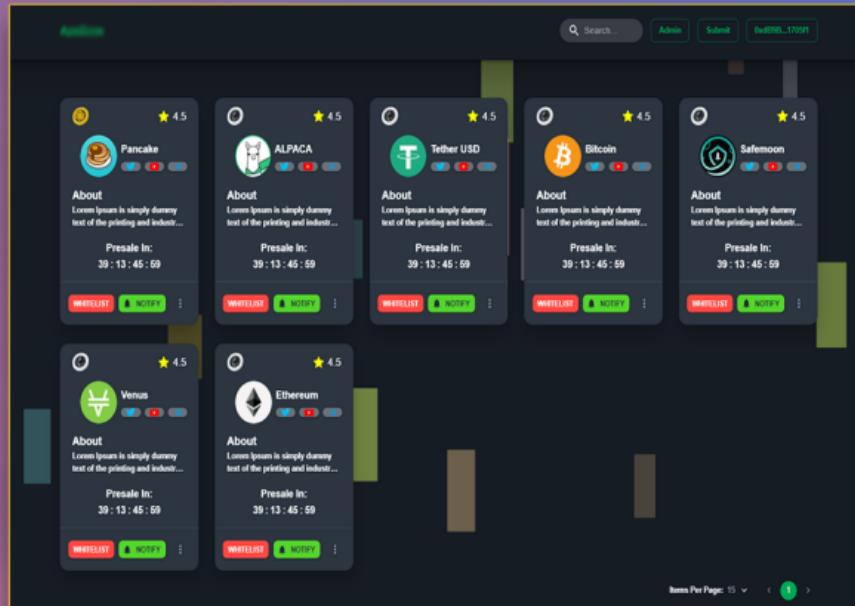

*Note: \$ARCANE holders will be able to **review, comment** and set up **push notifications** for any influencer on the Dapp

FUTURE PRODUCTS SNEAK PEEK #2

The 3rd dapp to release is a presale/gem finding platform, where users can rate/comment the vetted projects and get push notifications before they happen.

To add extra incentive to the dapp, users can also submit projects they find with their own whitelist link. Every submitted project gets vetted by Arcane's vetting team for quality insurance.

*Note: \$ARCANE holders will be subject to **guaranteed** whitelist spots and private presales.

FUTURE PRODUCTS - ARCANE FIGHTER - GAME NAME TBD

In contact with several well known and experienced Game Studios. The feature screen on the right is a product of one of them. The plan is to produce and envolve Arcane themed characters into our own Multiplayer, blockchain integrated PvP game with \$ARCANE rewards. We are not stopping there, Arcane Universe will develop several games and add other game projects via our GameFi incubator into the Arcane MetaVerse. Get ready.

FINAL THOUGHTS

Ultimately, we truly believe that this project will take off in a significant way, and we hope that you will want to join us and help us give the project the reach and scale it deserves. We value our community deeply and we want you to work with us with the same goal in mind - bring quality stuff into the DeFi space.

Thank you for being a part of the always increasing family.
- The Arcane Team
